Capital Partners Acquires Intelligence and Government Services Companies

WASHINGTON, July 25, 2007 - BUSINESS WIRE. **DC Capital Partners LLC** ("DC Capital"), a private equity firm headquartered in Washington, DC, focused on investing primarily in the defense and federal sectors, announced today that it had completed the acquisitions of Omen, Inc., ("OMEN"), the intelligence services division of Global Analytic IT Services, Inc., and Technology and Management Services, Inc., ("TMS"). Collectively these businesses will operate under a newly created company, controlled by **DC Capital**, National Interests Security Company LLC, ("NISC").

OMEN is a leading provider of sophisticated software and systems engineering services to key customers in the Intelligence Community with expertise in data acquisition, content management, information dissemination, collection and analysis of communications and electronic intelligence. Similarly, the information services division of GAITS, renamed and organized as National Intelligence Support Services LLC ("NISS"), provides complementary information technology services to the same community. TMS provides a broad range of management consulting and technology services to U.S. Government executive departments and agencies, including but not limited to, the Department of Energy and the Department of Homeland Security.

As a combined company, NISC will have over 350 employees with a significant number having top secret and higher security clearances supporting contracts of national interest and critical to national security. The companies will initially operate under two verticals, independent of each other, while they continue to grow and enhance their core capabilities.

"By partnering with **DC Capital** and combining with the other businesses that now comprise NISC we believe we are well positioned to capitalize on our core strengths and leverage them into new markets," said Jared Murayama, President of Omen.

Keller Staley, President of TMS, stated, "This is a great opportunity for our company. I am confident DC Capital will enhance our ability to grow our business organically and through acquisitions."

"Under the NISC umbrella we will have the capabilities, depth, and size to provide a greater offering of services to our customers and will provide expanded career opportunities for the employees," said Thomas J. Campbell, Chairman of NISC and President of **DC Capital**. "The companies have excellent management and a highly skilled and dedicated workforce. We are extremely pleased to have them as partners."
